

# BHAVYA KAUSHAL

## Professional Summary

MBA (Marketing) graduate from RMIT University with 2+ years of leadership experience in retail operations and hands-on exposure to marketing analytics, customer journey mapping, and digital strategy projects. Have driven measurable improvements in sales, inventory efficiency, and customer experience, and delivered data-backed recommendations in a client consulting setting. Seeking entry-level opportunities in marketing, growth, or consulting where analytical problem-solving, stakeholder management, and execution skills can support business growth in the Indian market.

## Work Experience

### Assistant Retail Manager, Marketing & Operations FoodWorks – South Wharf, Melbourne

JUL 2023- DEC 2025

- Spearheaded end-to-end inventory operations across 1,000+ SKUs, reducing stock discrepancies by ~20% through tighter supplier coordination and weekly variance audits.
- Curated and executed monthly merchandising plans tailored to local customer demand, leading to a 15% uplift in high-margin category sales over six months.
- Acted as the central point of contact for 12+ suppliers, renegotiating delivery schedules and minimum order quantities to cut overstocking by 30%.
- Analyzed sales performance and customer preferences to identify assortment gaps and inform category-focused promotions and in-store displays.

### SEO & Marketing Intern (Client Strategy) ECPL (Education Culture Pvt Ltd) | Remote

FEB 2026 – PRESENT

- Supported SEO execution for client websites by running keyword research, competitor scans, and on-page recommendations.
- Built SEO strategies, including site structure suggestions, content clusters, and internal linking plans aligned to search intent.
- Created content briefs and page recommendations using search intent + keyword metrics from Ahrefs/SEMrush.
- Tracked rankings and priority keywords and updated recommendations based on what changed in SERPs.

### Media Search Analyst TELUS International AI | Remote

MARCH 2026 – PRESENT

- Analysed search results and media content to assess relevance, intent alignment, and content quality
- Applied detailed evaluation guidelines to support accuracy and consistency across digital content reviews
- Identified mismatches in search suggestions and content outputs to improve quality and user experience
- Maintained strong productivity and accuracy while working independently in a fast paced remote environment
- Strengthened capabilities in digital analysis, quality assurance, and content evaluation through ongoing project work

## Consulting & Marketing Projects

### Client Consulting Project – Alinta Energy

- Proposed a CLV vs CAC analysis to evaluate customer profitability, revealing an 18:1 ratio that was acknowledged by an Alinta Energy executive as a key performance insight.
- Helped reframe the company's problem around bill-shock using behavioural insights and journey mapping, contributing to a strategic proposal for predictive billing and loyalty solutions.

### Strategic Marketing Simulation – ExerciseMinder

- Led a 9-year marketing simulation, balancing customer acquisition and retention to achieve a ROMI of 2.27 and 96.1% retention.
- Used regression analysis and A/B testing to optimize campaigns and channel spend.
- Shifted strategy toward email marketing and gamification to improve engagement and reduce churn in response to competition.
